Production, logistics and purchasing - Automobil Produktion reports all about the intelligent, flexible and sustainable manufacturing of the future. We provide readers, viewers and followers with a knowledge edge that will help them in their professional environment. Trade magazine, online portals, webcasts, newsletters, events - Automobil Produktion is regarded as an institution in the automotive and supplier industry in German-speaking countries. We follow a clear journalistic approach: The editorial team provides first-hand news, background information and analyses, thus supporting management in its decisions.

The automotive industry is facing the biggest transformation in decades. The phasing out of the internal combustion engine will come - and with it the need to produce e-vehicles in large quantities. But it's not just the products that are becoming sustainable; automotive manufacturing itself has also embarked on the path of decarbonization. And it has long been clear that nothing will work in the factory of tomorrow without digitization. We will accompany these exciting developments.

Join us and become part of our community.

Our future: the automotive media network

In 2018, the industrial business section of the Süddeutscher Verlag Medien-gruppe established an automotive media network including the Automobil Produktion, automotivE!T and carIT brands. A major player in the area of automotive trade media emerged from these strong brands.

Our brands' journalistic competencies are directly meshed with one another. We are bundling our expert knowledge into a cross-location editorial team that reports critically and with editorial independence. Throughout the world, the auto industry continues to undergo the greatest transformation in its history. Serious changes are resulting from the new expectations for the mobility and powertrains of tomorrow, the digitalization of production, and cross-product tech trends involving issues such as Big Data, artificial intelligence and cybersecurity.

To a growing degree, digital services are supplementing traditional business models as new players from the world of Big Data provide unprecedented dynamism in the market and are increasingly driving innovation in mobility services. The automotive media network addresses this disruption and innovation within the sector with a holistic approach to new processes, solutions, strategies and technologies. .

The automotive media network reaches experts in the industry:
 Print and e-Paper: 22,849 reached readers
 Digital: 831,223 page impressions
 Newsletters: 19,600 subscribers

Copies per edition or visitor totals per month (in each case based on annual average between 07/20 and 06/21)

Our events

For years, participants have awarded outstanding ratings to our automotive media network events under the **automotiveIT** and **Automobil Produktion** brands. During the recent months of the pandemic, we've learned to respond flexibly to new requirements. We quickly adjusted our in-person events to the conditions imposed by the Covid-19 situation, using new advanced digital tools and even carrying out purely digital events. Together with our speakers, partners and participants, we've gained the experience to help us to continually improve. We are convinced that, as of 2022, we can carry out events with an on-site presence on a more robust basis. All of our events stand out for their strong digital component.

That is our goal. And we measure ourselves against it during every event.

The network at each of our events is unique, thanks to editorial support and high-caliber speakers from the automotive and IT sectors.

Automobil Produktion Kongress

Hybrid event · June 2022

The Automobil Produktion Kongress focuses on digital production and its implications for logistics and purchasing. More than ever, the current crisis shows how dependent auto manufacturing is on reliable production networks. The transformation of production requires deep-seated partnerships between OEMs, suppliers and players from the digital world.

Formats

Technical Information

Magazine format: 210 mm wide by 297 mm high, DIN A4

Text area: 178 mm wide and 232.75 mm high

Print process: Sheet offset

Data formats: The delivery of data as PDFs version 1.3 (PDF/X-1a/, generated with Acrobat Distiller as of version 4.0 and with a raster-modulated proof. High resolution image data at least 300 dpi, resolution for 60-raster format, color model always CMYK (never RGB or LAB color values). Bitmap (line art scans) should have a resolution of at least 800 dpi. Format applied in original dimensions with trim allowance specified and trim marked.

Colors: For digitally transmitted print templates for color ads, the customer must simultaneously provide a color proof with FOGRA Media Wedge version 2.0 or 3.0 and a proof or measurement protocol (= certificate). Otherwise, there can be no claim for compensation due to any color deviation.

Proof: Based on the FOGRA standard. With FOGRA Media Wedge 2.0 or 3.0 based on the standard. **PSO_LWC_Improved_eci.icc** for interior, generally paper type 3 FOGRA 45L – based on standard, **ISOcoated_v2_eci.icc** for covers. generally paper type 2 FOGRA 39L – based on standard.

Data archiving: Data are archived, so duplication without alterations is generally possible, but assume no guarantees with regard to data.

Warranty: For digitally transmitted print templates for color ads, the customer must simultaneously provide a color proof with FOGRA Media Wedge version 2.0 or 2.2 and a proof or measurement protocol (= certificate). Otherwise, there can be no claim for compensation due to any color deviation.

Topics that we regularly cover – in our magazines and digital media

Materials and compounds **Additive production**
Assembly and handling technology Laser technology **Surface** Production technology
Supplier strategies/SCM **Body construction** Alternative drives
TOP 100 auto suppliers Forming technologies **E-mobility** Tooling machines
Quality management **Machine learning** Engineering **Display** Sensor systems
Connected car **Cloud services** **HMI** **Industry 4.0** Shopfloor logistics
Powertrain **Interiors** Assistance systems Onboard networks **Surface technologies**
Electric/electronics **Smart factory** components 3D printing
Lean management/Lean production
Robotics and automation **Global automotive business**

AUTOMOBIL PRODUKTION

The past years have shown that many topics have become more important and relevant than those scheduled in media planners.

Up-to-date details on the main topics of each edition are communicated to you via email in each case or can be found at

<https://www.automobil-produktion.de/media.html>.

Or feel free to call us at +49 5101 9903995

Web-Adresse: www.automobil-produktion.de

Kurzcharakteristik:

www.automobil-produktion.de is the leading informational portal covering manufacturing-related themes in the automotive and supplier industries. The reporting focuses on production, logistics and purchasing – Automobil Produktion deals with the smart, flexible manufacturing of the future. The integration of smart machines and installations plays just as important a role as changes in purchasing and supplier management. In this connection, the industry magazine analyzes and interprets corporate strategies, technological progress and measures to improve value creation. In its coverage, the Automobil Produktion team consistently takes a straightforward journalistic approach.

Target group:

Top management level (board members and CEOs) as well as decision-makers in the purchasing, development and production areas at OEMs, suppliers and outfitters.

Advertising materials delivery via DCM (Google Campaign Manager):

Please provide the creative's forwarding URL.

Data delivery:: 6 workdays before the launch of the campaign, via email, to pacoli@media-manufaktur.com
Tip for mobile delivery of the leaderboard:
Please deliver a medium rectangle 300 x 250 for each booking.

Access control: For up-to-date data, see:
<http://ausweisung.ivw-online.de/>

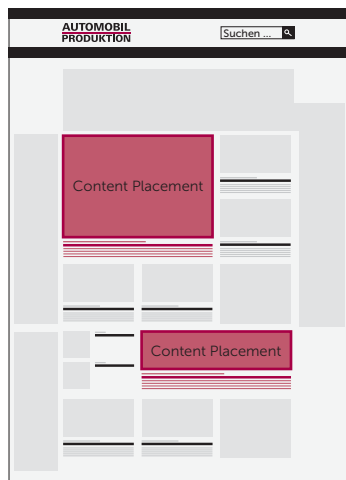

Reporting: If desired, you receive an evaluation of the ad impressions and ad clicks.

Number of hits: per month Page impression/month: 762,939
Visits/month: 309,116

Content Placement Plus

Content Placement is published as a full-fledged, labeled article in the desired section on our portal site

- consultation from our contact experts (pre-quality check)
- editing of the contents based on our internal style guide and target group criteria (editorial look and feel)
- placement of the article in the section that you desire
- archiving on the portal site: 1 year after publication
- Number of characters: about 3000

Marketing

- individual bannering
- social media integration
- integration in the editorial newsletter
- **Duration: 1 week**
Price: 3,690 euros

Whitepaper

Integration and promotion of your white paper on our portal site

Components:

- Editorial services: pre-quality-check by our content experts
- Creation of a landing page on our portal
- Weekly forwarding of download addresses over the entire duration (12 weeks)
- Archiving on portal site: one year after publication

Marketing during the entire duration:

- Individual banner
- Social media integration
- Integration into the editorial newsletter
- **Duration: 3 months**
Price: 7,900 euros
Base price including 40 leads (42 euros for every additional lead) (e.g. first name and surname, email address, company, position, telephone)

Examples of already published white papers can be found here

<https://www.automobil-produktion.de/insights/whitepaper.html>

Formats and technical specifications

Data formats:

(animated) GIF format, JPG, HTML, DHTML banner, image files or graphic files (including banners) always as RGB (color model).

The maximum data size is 50 kB. The specified file size is a maximum value and is considered to be the total sum of all the data that define the advertising material (including files, images, etc., to download).

Format of the newsletter:

HTML/text

animated formats are not permitted

Delivery address:

Please send the advertising material for your campaign to
pacoli@media-manufaktur.com

Timeframe for delivery:

1 week before the start of the campaign (banner)

2 weeks before dispatch date (standalone newsletter)

With this lead time, we have enough time to test the formats and guarantee the campaign's reliable delivery. We bear no financial responsibility for delays resulting from late deliveries. We need the following information at the time of the delivery:

- The name of the customer
- The name of the campaign
- Timeframe for the booking
- Assigned site
- Advertising format
- Contact person in case of questions
- Click URL

Reporting:

If desired, you can receive an evaluation of ad impressions, ad clicks and CTRs.

Newsletter

Features:

Workdays, the newsletter provides up-to-date, valuable information on the auto and supplier industries, along with more extensive information on companies, people, markets, products and technologies. Industry news is combined with in-depth background information.

Recipients:

Decision-makers in a range of functions the automotive and supplier industries, including executive boards, high level management, production and logistics, purchasing and development.

Forms of advertising and prices:

Forms of advertising	Format (in pixels)	Price per calendar week
Exclusive Ad	650 x 90	1,480 euros
Content Ad	300 x 250	1,340 euros
Text Ad*	max. 350 characters plus picture (145 x 145 pixels)	1,990 euros

*Text Ad reach extension via Xing (appr. 53,000 subscribers as of August 2021)
Price: 1,000 euros

Maximum data volume 50 KB

Distribution: Total number of recipients: **15,500***

*As of July 2021, Shipping 5 x per week Mo. - Fr. (no shipping on national holidays)

Standalone Newsletter

Besides our newsletters, we have another option that allows you to address our target groups – with a standalone newsletter. You design a newsletter that contains only your content. This guarantees your ability to advertise to a precise group of potential customers without any distractions. Under our site's name, newsletter is sent to about 15,500 subscribers and contains 100 percent customer content.

We offer two different options for the standalone newsletter:

Standard:

Variation 1 – based on our template design

Variation 2 – based on your (the customer's) HTML

We recommend variant 1 for your communication. The package always includes the newsletter's creation and a correction loop.

Price from 5,900 euros per delivery

Below you will find information on the various technical specifications for the delivery of data for the shipment of your newsletter (Guideline for Standalone Newsletters):

www.automobil-produktion.de/mediadaten

Material delivery 14 days before shipping date.

Effiziente Produktionslogistik in der Automobilproduktion mit dem Karakuri/LCA

Karakuri/LCA in einer neuen Dimension

ZUM ANWENDERBERICHT >

Blick hinter die Kulissen der Automobilproduktion bei Toyota
Sehr geehrter Herr Mustermann,
Karakuri/LCA (Low Cost Automation) ist eine kostengünstige Form der Automatisierung, die auf Schwerkraft und frei werdende Bewegungsenergie setzt. Doch mechanische und traditionelle Automation können sich optimal ergänzen, wie folgendes Beispiel zeigt.

Kreative Lösung für Materialtransport in der Kleinwagenmontage
In der Automobilproduktion von Toyota Motor Manufacturing Czech Republic kreuzten die Fahrwege von Transportwagen für Klimaanlage an einer Stelle die der Routenzüge für die allgemeine Materialversorgung. Daraus resultierende Staus wirkten sich negativ auf Materialfluss und Prozesseffizienz aus. In enger Abstimmung mit Item lösten die Ingenieure vor Ort die Herausforderung mit einer innovativen Karakuri/LCA-Brückenkonstruktion: Die Engstelle wurde aufgelöst und sowohl der Transport der Klimaanlage als auch der Abtransport der leeren Kleinladungsträger deutlich effizienter.

[Anwenderbericht sichern](#)

Klassische Lineartechnik von Item
Ein wichtiger Erfolgsbaustein der Karakuri/LCA-Brücke ist der Einsatz von Item Lineartechnik. Denn das punktgenaue Anheben von Lasten benötigt traditionelle Antriebstechnik. Verschaffen Sie sich im Factsheet einen Überblick über die Vorteile des Item Automationsystems.

NEW!

Themed Newsletter

The themed newsletter offers the best possible placement for your company, your product or your solution for our target group. Eight times a year, our editorial team gathers the most relevant news on a particular topic into one of our newsletters. Your company name and logo in the header of the themed newsletter on an exclusive basis (presented by...). Yet another advertising format such as text ads or static or moving banners can also be placed here.

- **15,500 qualified recipients**, including the top experts in the sector
- High, above-average **opening rates**
- Possible file formats: **jpeg, gif and png**
- Maximum size 50 KB for a banner or alternatively 350 characters of text including spaces plus a picture (145 x 145) for the text ad; logo as a graphic or image file
- **Price per shipment: 6,600 euros**

Schedule of dates and topics for 2022

Week No.		Main Theme
1	13	Smart Factory automation, AI, cloud services, Big Data, 5G, production control (MES), intelligent sensors, machine learning, control technology, human-robot collaboration
2	25	Powertrain Engines, transmissions, seals, components, alternative fuels, fuel cells, charging
3	29	Top 100 suppliers Strategies for suppliers, challenges facing sustainable supply chains and logistics, "rising stars." AP exclusively compiles a ranking of the top 100 auto suppliers worldwide every year
4	38	Tools, Production and surface technologies Tools Machines and tools, additive manufacturing, facility construction, coatings, protection, quality assurance, 3D printing, digital twins, prototyping
5	47	Global automotive business OEM production sites worldwide, strategies and platforms. Each year, AP exclusively compiles a unique collection of data on the Top 20 global automakers.
6	50	Sustainability Zero Impact Factory, raw materials, procurement, etc.

Webinar – your new path to your key target group

Your seminar as a **live exchange of views and information** followed by a **panel discussion**.

Open up your **expertise** to a wider public – with interaction

- Direct exchanges with your **target group**
- Communicate the expertise of your company
- Gain **new customers** with our address pool
- Present yourself to the readers of automotiveIT

We take your idea and turn it into an attractive webinar.

Benefit from the reach of our automotive media network and our dedicated development of the trade magazine's top target groups. Take advantage of our expertise and our network to achieve your communication goals.

Recordings of successfully marketed webinars can be found here www.automobil-produktion.de/webinare.html
Price from 9,900 euros per webinar

We handle the marketing for you

- Professional execution including **kickoff meeting** with your speakers and (if desired) our moderators* including explanation of unique selling points, target group and the benefits for webinar participants
- If desired, arrangement of experts and co-speakers
- Development of your **webinar landing page** including registration option and introduction of speakers
- Loading of the **download materials** (e.g. data sheets, e-book...) that you have provided
- Doing a final **dry run** about one week before the webinar is held
- Unlimited **timeframe for downloading your webinar** from our media library after completion

*Editorially independent, highly competent industry editors and/or experienced staff from the automotive event team would be happy to provide you with guidance.

Access figures per month:

Automobil Produktion: 762,939 page views/month and 309,116 visits
 automotiveIT: 68,285 page views/month and 25,294 visits

automotive media network: 831,223 page views/month and 334,409 visit

Annual average for the last 12 months from 07/20 to 06/21 according to IVW for Automobil Produktion and Google Analytics for automotiveIT

Digital topic-related talks as part of an active partnership. Experience the trade magazine "live" and help to shape it as a partner.

- Single theme from an array of **automotiveIT** topics relating to Business IT or Product IT or **Automobil Produktion**
- A **thematically relevant lecture by an industry expert** from the **partner company** with a short interview
- At least one **thematically relevant live interview with an OEM or Tier 1 supplier** at your invitation
- At least two interactive roles for participants
- 1-2 trade editors from the automotive media network are the guides through the topic-related talks
- Duration 50 to 60 min.

Partner options with active contribution of the sponsor/partner

Premium Plus advertising option	Exclusive studio recording	Exclusive recording at your company headquarters
Premium Plus advertising option Editorial topic-related talk via Go-to-Webinar including logo branding, ads or banner display and short video	Recording of the format in a studio with you as partner and industry expert - and our editorial staff	Recording at your company headquarters with editorial staff in attendance
Additional showing of the virtual consulting session after the topic-related talk via chat (max. 60 min.) Post-event networking and additional download options	Additional interviewees are connected by stream	Additional interviewees are connected by stream
25,000 euros	Premium Plus plus 10,000 euros	Premium Plus plus 17,500 euros

Our services

- We utilize **our expertise** and **our network** to reach your **communication goals**.
- We support digital topic-related talks with **targeted digital marketing** along with editorial support.
- **Promotion** and **participant generation** in part by means of a **standalone newsletter** to our newsletter distribution list (a total of 18,000 subscribers) and individual bannering on our portals (more than 1 million page impressions and more than 400,000 visits monthly) for a minimum of three weeks.
- We analyze the participants and **make leads available to you**.

The benefits to you

- You acquire **important new contacts** in the automotive media network, which has a wide reach.
- Your **visibility on Google** is improved, especially in the context of the defined theme.
- You retain **your focus topic exclusively** for a long period.
- You show your **technical expertise** on the selected topic and share information directly with your target group.
- Your content is **transmitted into the industry (nearly) free of scatter losses**.

"Digitalization and its associated innovations have not fallen short of the marketing field. It was a great pleasure to learn about Media-Manufaktur's concept of 'talks on a topic.' Participants in virtual events now have high expectations for informational content, entertainment and presentation quality. Expert dialogues complete with perspectives, theses and open questions for interaction – the "talk on a topic" was able to deliver everything on the Mobility Digital Twin, achieving exceptional results in the number of participants and in the response."
